

## Server Service Upgrade

By : Feriyanto

Sabtu, 01-Maret-2008, 06:00:43

at February 29, 2008 - 02:00 AM we had upgrade :

- Upgrade Apache1 to Apache2

- Running php4 and php5 on server with php5 as default with register\_global = OFF

- Enable RBL SpamAssassin from zen.spamhaus.org and rbl.spamcop.net at once. this may lack the server performance but it will secure for your email

If you have any questions, please feel free to contact us as soon as possible.
